Stony Plain Town Council.

Following are the proceedings of Stony Plain Town Council's meeting, held on the 10th inst. Those present were The Mayor and Councillors Oatway, Miller, Armbruster, Oppertshauser, Lord.

A motion carried, that Mr C. H Holling, be appointed Poundkeeper, and that the new Pound be located on the Fair Grounds.

Some discussion took place on the matter of a bridge over Demonstration Creek, on the 5th Mer, but the matter was laid over, for further consideration.

A report on fire equipment called for the purchase of necessary supplies for the chemical engines, and these were so ordered.

A letter was read from an accountant in the Provincial Department of Agriculture, in reference to the account with the Town on back taxes on the town lots which were "annexed" to the Government Farm some ten years ago.

The Fire and Light Committee's report was read. This contained a full account of the visitations of the committee and conditions as found in the various business places inspected. It was noted that some of the suggestions of the Committee had not met with a ready response. The Councillors were agreed that prosecutions should follow any further contraventions of the Fire Bylaw.

When the proposed bylaw for inspection of cattle for tuberculosis was up for discussion, it was agreed that the Town pay all expenses in connection with testing the cattle.

The members of the old Parks Board were re-appointed, namely T J Hardwick, J Foerster, G Donaldson.

The Standing Committee was given a free hand in regard to fixing up local roads. The matter of straightening the trail to Cobblers' Row was up, and this well-known highway will receive some attention when the season's work begins.

An application was read from a local man for the lease of the piece of land owned by the Town, lying north of the Oatway grounds. A committee composed of Messrs Oppertshauser, Armbruster and Oatway, will inspect the premises and report to Council.

A recommendation that the line of tie posts in front of the Firehall be extended 30 or 40 feet, carried.

A number of accounts were passed and ordered paid, after which Council adjourned, to meet May 4th.

Some Prices for Bulls.

At the Bull Sale in Edmonton last week, $305 was paid for Comus of Glencarnock. The Shorthorn, Gold Dust 8th, was a close 2d, at $300.

In the Aberdeen Angus, Jas. Rush of Peers paid $125 for Beaut of Willowpark.

Herefords—Peter Heckle of Duffield gave $100 for Ratherne Fairfax; and Jacob Ott of Spruce Grove got $100 for his bull, Robert Donald.

Dan McKinlay of Comet sold his prize Shorthorn bull, Killblean Champion, to the Dominion Live Stock Branch for $160.

Mr Kullander bought a prize Shorthorn bull, Prince of Braeside, at the Edmonton Bull Sale last week.

LOCAL NEWS.

Miss Wolf, who had been suffering from an attack of diphtheria, is now back at her duties at Lawyer Lundy's office.

Miss Schramm last week took a position in the local Phone Exchange, replacing Miss Baron.

Mr R B Brooks is in attendance this week at the Convention in Calgary of Alberta School Inspector.

Mr Graves motored a party of friends to the City on Sunday.

Rudolph Hoffman is said to be leaving shortly for his fruit farm in British Columbia.

Miss Michaels and Mr. Thurston, of the Edmonton office of the Bank of Commerce, were transfered last week to the local branch.

The Alberta Teachers' Alliance is holding its convention this week in Calgary, and Mr Clarke, Principal at the local school, is attending its sessions.

Miss R. Bivest has left the employ of the Bank of Commerce and gone on a visit with her sister at Morinville.

Mr. Louis Adolf is moving out this week, to the Grokenberger farm.

Mr K. Clarke, manager of the Bank of Commerce at Ponoka, is taking charge of the branch at Stony this week, Mr Stuart being moved to Delia.

Mr. Roy Whitelock, who had been spending the winter with friends in Ohio, U. S. A., arrived back in Stony on Saturday last.

Mr. W. Gordon, who spent the winter in B. C., arrived back in Stony on Saturday.

Mr Ray Hyatt, the well-known expert mechanic, is now in the John H Miller Auto Repair Shop, in the Ducholke Building.

Mr John Bonn, who left for a trip to the Coast a short time ago, and who went East thru the U.S., is now located at German Mills, Ont.

Saturday's train from Vancouver was 8 hours late; with Sunday's train from the same place over 9 hours late.

The Senior room at the local school is closed this week, but the four other rooms are continuing their sessions.

Mr A Graden, who had to vacate the Tuttle farm when it was sold, has moved to Stony, and is occupying the apartments over the Kelly General Store.

At the time of going to press last week it seemed as though the usual Easter Monday dance would not materialise, but several local Sportsmen stepped in the breach, and started things a going. The thanks of the dancers of the district are due these gentlemen.

Owing to the absence from town this week of several members of the troupe, the show to be given by the Minstrels had to be postponed to Tuesday next, April 25.

☞ Meet me at the sale of work in the Methodist Church on Saturday next.

The Miracle Of Spring

Spring has come again with all that it implies of hope, rebirth, optimism, growth, youth and happiness. Spring, the ever recurring miracle of the ages!

It is only necessary to open one's eyes to realize the wonders of Spring all around. Brooks and rivers, joyfully break their icy fetters and go leaping, rushing on their way; trees throw out their tiny leaves; seemingly dead and dried grasses almost overnight take on a lustre of green; birds appear miraculously and fill the air with song. In a word, all nature awakes from its long sleep and thrills with life and the joy of living.

And what Spring means and brings to nature it should mean and bring to all mankind. Just as the cold earth yields to the benign influence of the growing strength of the sun's rays, and casts off the iron bands which have held it in frozen grip, so should man respond and throw off the lethargy and pessimism of winter and renew his youth and vigor with Spring.

Of course, men do, with the coming of Spring and the renewed activity of nature, undertake those duties of the farm which the season brings, while in the cities artisans are again employed in structural works. But Spring should mean to all men and women a deeper, more significant message than merely a call to summer's work.

Spring is the season of hope and promise. It is the time of year when all may turn their backs and their minds on the past and look forward with confidence to the future.

The winter of 1921-1922 was a hard and discouraging one for many people. To some it was a time of hopelessness and even acute suffering. Inevitably it caused a lowering of one's morale, a weakening of one's courage, discouragement, and the development of a feeling of pessimism about the future. Nature seemed cruel, and the efforts of man to withstand its vagaries and onslaughts appeared weak and futile.

But with Spring, nature comes in a happier, smiling mood. It offers encouragement. Ones' first effort, therefore, should be to respond to this kindlier mood, and to shake off the pessimistic feelings of the past, to turn from the dark forebodings of winter, to forget past discouragements, and to face the future with confidence and a brave countenance.

Recognizing the fact that environment has a great deal to do with one's state of mind, it is the part of wisdom to improve that environment in every way possible. A man cannot make a success of things if all around him are evidences of failure; progress and efficiency are not born in surroundings marked by sloth and carelessness. Winter always is characterized by accumulations of useless and waste material, and the melting of the snows reveals much unsightliness which is most depressing.

A general, vigorous "clean up" should, therefore, be the first Spring duty. Clean up the house clean up the yard, remove and destroy the refuse of winter, repair that broken fence, judiciously employ a little paint. Remedy all those little things which give a rundown, shiftless, unprogressive, unprosperous appearance to your place. A little time will do it, and the effect on yourself and your family will be amazing. And don't forget to clean up your own thoughts and ideas. Bury out of sight your old forebodings and gloomy predictions. When washing your house windows don't neglect to clean the windows of your mind and soul.

Demoralizing outward conditions have a depressing effect on the inner man, but it is from within that must come the will to improve those outward conditions. To allow the sluggishness of winter to continue means, not life, but death. Just as nature throws off the shackles of winter and responds to the appeal of Spring, so must each and every individual refrain from further dwelling upon the discouragements and losses of the past and throw themselves whole-heartedly into the present with their eyes fixed on the future and their energies—spurred on by an inflexible ambition to succeed—employed in constructive work.

A Spring clean up is good business from the purely practical standpoint. The removal of waste is always wise. It is a matter of economy. It is a safeguard of health. But it also has a beneficial effect on oneself. It refreshes the individual, and if a material clean up is accompanied by a readjustment and betterment of one's outlook on life and its problems, a long step forward has been taken.

France Will Test Motorless Aircraft

Trials Expected to Take Place During the Summer

Trials of motorless airplanes are to take place on an extensive scale in the Department of Auvergne, in Central France, during the summer. Hitherto efforts in the direction of developing some kind of airplanes capable of flying about without the aid of motors were generally regarded as having been left to Germany, but the French have now entered the field on a large scale.

The municipal council of Aydat, near the well-known lake of that name, has just authorized the Auvergne Aero Club to operate in the parish an aerodrome for the use of the body formally known as the Experimental Congress of Motorless Airplanes, which is to be held there from July 15 to September 15. The hangars will be erected at the foot of the peak called the Puy-de-Pommegrasse. The motorless airplanes will "take off" from the top of the peak.

YOUNG WOMEN WHO SUFFER

Letter Points Way Towards Relief—Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I suffered from the time I was a school-girl until I had taken your medicine with pain in my left side and with cramps, growing worse each year until I was all run down. I was so bad at times that I was unfit for work. I tried several doctors and patent medicines and was only relieved for a short time. Some of the doctors wanted to have an operation but my father objected. Finally I learned through my mother of Lydia E. Pinkham's Vegetable Compound and how thankful I am that I tried it. I am relieved from pain and cramps and feel as if it has saved my life. You may use my letter to help other women as I am glad to recommend the medicine."—Mrs. H. A. Goodnas, 14 Rockvale Ave., Toronto, Ontario.

ROYAL YEAST CAKES

Canadian Made

As a health builder, Royal Yeast is gaining in popularity every day. It is a food - not a medicine. It supplies the vitamine which the diet may lack. Royal Yeast is highly beneficial in cases where the system seems "run down". Royal Yeast is the richest known source of vitamines, and when taken into the system acts as a corrective agent. Royal Yeast Cakes are recommended for their purity and wholesomeness. It is the purest, the most convenient and economical yeast on the market.

Two to four Royal Yeast Cakes a day will work wonders. A full day's supply can easily be prepared at one time by using one glass luke warm water and teaspoon sugar to each yeast cake. Allow to stand over night in moderately warm room. In the morning stir well and pour off liquid. Place in refrigerator or other cool place and drink at intervals as desired throughout the day.

Send name and address for free booklet "Royal Yeast Cakes for Better Health."

Fatal Street Accidents in Britain

Official figures just published show that there were 2,845 fatal street accidents caused by vehicles in the United Kingdom last year, just eight more than in 1920. The number of accidents which did not prove fatal but resulted in personal injury, increased by over 4,000 to 61,000. In London there were 571 fatal street accidents last year and 22,647 that were not fatal.

UNSIGHTLY PIMPLES AND FACE ERUPTIONS

In the Spring Most People Need a Tonic.Medicine

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed, there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot get rid of these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, blood-improving, nerve-restoring powers. Every dose of this medicine helps make new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits and fill your veins with new, health-giving blood.

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Strange Names in Congress

There were once four Smiths in the United States Senate, but now the upper branch of Congress is graced by numbers of strange and unusual names. It is hard to tell whence we sprung when we read the names of such Senators as Ailee Pomerene, Tasker Oddie, Reed Smoot, Holm Bursum, Furnifold McSimmons, Irvine Lenroot, Carter Glass and Nathaniel Dial. What's in a name, anyhow?—Los Angeles Times.

The Oil for the Farmer.—A bottle of Dr. Thomas' Eclectric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

World Record for Daily Newspaper

London Daily Mirror Claims Achievement for Royal Wedding Number

The Daily Mirror claims to have broken all daily newspaper records when it published 3,035,571 copies of its Royal Wedding Number, which it believes to be a world daily newspaper record. There were two Daily Mirror souvenir numbers—the Princess Mary Number, of Tuesday, and the Royal Wedding Number, of Wednesday. Of the Princess Mary number 2,156,000 copies were printed—an output which is believed to exceed anything yet done in the history of the Daily Mirror or its contemporaries. That record was broken within twenty-four hours by the issue of over three millions of the Wedding Number. Mechanically, it was a tour de force, for the eight pages of wedding pictures went to press four hours after Princess Mary's return to Buckingham Palace. Some previous figures of Daily Mirror prints are: 1910, King Edward's Funeral, 2,013,943; 1920, Cenotaph unveiled, 1,907,685; 1914, Birthday Number, 1,892,629; 1915, Fashion Number, 1,764,480.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.

"Them Wuz the Days!"

The Cream Buying Stations.

Elimination of cream buying stations, as provided for in amendments to the Dairymen's Act passed at the recent session, will not prevent farmers or creameries maintaining agents at local points to look after the shipment of cream. This is the statement made by officials of the Agricultural Department, after a consultation with the officials of the Attorney-General's Department.

The great object behind the new movement is to clear the channel between the producer of high grade cream and the market for high grade butter; in other words, to see that the farmer who takes the trouble to put the quality into the cream—and no person else can put it there—gets the benefit of his effort by being able to reach the highest market available. This will be accomplished chiefly by the fact that cream now will be graded by disinterested Government graders at central points.

The old system of cream-buying stations is estimated to have cost the industry $250,000 annually. It is estimated that the restricted service at local points under the new amendments should not cost more than $50,000 In addition to this, the Government has appropriated forty thousand dollars for Government grading, which makes a total of ninety thousand. If these figures are ultimately borne out, it means a direct saving to the industry of over $150,000.

Furthermore, the Dairy Commissioner is confident that the improvement of quality during the first year of the new system will reach the value of $150,000. This improvement in quality would increase and be cumulative from year to year, increasing the amount of revenue to the industry and resulting in the securing and holding of quality markets for Alberta butter.

Experience of both Saskatchewan and Manitoba has proven that the elimination of the cream buying stations has resulted in a marked improvement in the quality of butter, and, with a few years' experience of the new system, there has been no demand in either of those provinces for a return to the old system.

"$30 Per" No Attraction.

Much difficulty is being experienced by the Edmonton employment bureaus to fill all of the jobs for farm hands being placed with them, says the Journal. As spring approaches, the tendency of the unemployed men is to wait for the jobs on the railways and elsewhere which are expected to materialise shortly. Thirty dollars per month and board, the average wage offered the farm hand, seems to have no attraction for the man without work.

Hard-Time Dance at Hansen's

The Hard Time dance at Hansen's Corners Schoolhouse on Friday week was a great success, there being over seventy-five persons present.

There was a goodly number of competitors for the prizes offered by the committee, but Miss Grace Walton and Miss Ellen Jamieson far outdistanced their competitors, and won the valuable prizes. A nice lunch was served at 12 o'clock by the committee, which was greatly appreciated by the dancers. Everybody present enjoyed themselves to the utmost, and a hearty vote of thanks was passed to the committee and director of ceremonies for a very pleasant evening spent. The music was excellent, it being furnished by Miss Nellie Miesner and Master E Miesner.

Tax Sale Relief Act.

Important provisions in the new Tax Sale Relief Act, which provide for the extension of time for redemption of certain lands from tax sales, are called to the attention of residents of municipalities. Under this new Act, the time for redemption of all lands included in plans registered in the Lands Titles Office and all lands included in the corporate limits of towns and villages, has been extended to May 1st of this year.

In this connection, the Secretary-Treasurer of a town or village or municipality, is required to publish a notice to this effect twice in a publication in the district or in a publication which has a general circulation in the district, and to call attention to the fact that lists of these lands so in arrears can be procured from him.

In the case of farm lands which were included in the 1920 tax sale, the time for redemption is extended until next November 1st, and the procedure in this connection is outlined in the new Act.

M.P.P.'s to Study the Works

Premier Greenfield is planning to put into effect a scheme whereby the members of the government side in the legislature will be able to study the workings of the various departments of the government in a more intensive way. These members have left with Premier Greenfield the task of grouping them into different groups, each group to take up the study of one department, and to hold meetings with the minister in charge of that department. This suggestion was made by the members themselves.

The Federal Treasury was enriched by $1,833,071.71 in coal royalties from Dominion lands from April 1, 1906, to March 31, 1921. During the same period, coal royalties from school lands in Saskatchewan and Alberta totalled $133,819.66. This information was tabled in the House of Commons.

The Council of the Empire Press Union, in London, passed a resolution deploring the lack of adequate telegraphic communication and urgently pressing the Government to immediately carry out or support some scheme for an imperial chain obtaining general approval throughout the empire.

60,000,000 Trees Planted

More Seedlings Being Shipped This Year from Indian Head than for Past Five Years

The shipments of tree seedlings and cuttings going out this spring from the Dominion Forest Nursery Station at Indian Head, Saskatchewan, will be among the largest in the past five years. The kinds sent out are chiefly Manitoba maple, green ash, Russian poplar, willow, and caragana. They are used solely for planting shelter-belts on prairie farms. Since the nursery station was established about sixty million seedlings and cuttings have been distributed to prairie farmers.

MANY CHILDREN SICK, HOW TO TREAT THEM

The kiddies will get their feet wet, catch cold, get croup and give their mothers lots of trouble. With the first cough or sneeze, rub the little one's chest with Nerviline, rub it on plentifully. It can't harm. Then make a gargle with Nerviline and water, and have the child gargle for five minutes. Just at bed time, give the child ten drops of Nerviline in hot sweetened water. The result is fine, and next morning child is better. Nerviline is a great protection in the home. Large 35c bottles at all dealers.

Purple Taboo

At a marriage ceremony in Japan a dress of purple color is taboo, lest the mutual love of the bride and groom be soon lost, as purple is a color most liable to fade.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

DIET NOT EVERYTHING IN KEEPING HEALTHY

Your table may be loaded with food digestible and wholesome, yet you don't get strong. What's the trouble? The liver is lazy, stomach is overloaded, the bowels are not active. Relief is quickly supplied by Dr. Hamilton's Pills. They make weak sickly people strong and well because they keep the system clear of impurities. Those who regulate the system with Dr. Hamilton's Pills don't have indigestion or constipated headaches, they feel enlived all over, because their system is kept in smooth running order. To revitalize and stimulate your whole being, to shake off lethargy and tiredness, nothing compares with Dr. Hamilton's Pills, which certainly bring good looks, good spirits, good health. 25c all dealers, or The Caiarrhozone Co., Montreal.

Why Irish Are Fighters

A certain diet specialist tells us that the Irish are a bellicose people, largely because they eat little meat but take a good deal of buttermilk and vegetables. The Balkan nations also are great fighters and at the same time are said to consume great quantities of buttermilk. He thinks if the Irish were to change their diet they would become much more peaceful. It seems strange how good an argument can be formed out of a few non-essential facts and a vivid imagination.—Christian Guardian.

KEEP BABY WELL IN THE SPRING

Mothers who have little ones in the home find the Spring a time of great anxiety. At this season conditions make it necessary to keep the baby indoors. He is often confined to overheated and badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent colds; constipation or colic, and keep baby well. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

World's Available Water Power

A new French estimate of the world's water power resources credits the United States with 20,000,000 available horsepower; Canada with 25,000,000; Norway with 7,500,000; Sweden with 6,750,000; and Italy and Spain with about 5,000,000 each.

Regina Cattle Sale Very Successful

Prize Winning Shorthorn Bull Sells For $1,100.00

Considering financial conditions, the directors of the Saskatchewan Cattle Breeders' Association are very well pleased with the prices obtained at the pure-bred cattle sale recently held in Regina. Pure-bred females did not sell as readily as pure-bred bulls. The demand for bulls, however, was steady, and the bidding brisk.

An average of $200.00 each was secured for 85 Shorthorn bulls, and the top price for Shorthorns and for the sale was $1,100.00, which was paid for Mars Avon 3rd, sold by a Prince Albert man and purchased by a man from St. Walbourg. This bull had been a prize winner at the International last fall.

The average price for Hereford bulls was $162.00 on 30 head, with a top price for this breed of $375.00. Aberdeen Angus bulls sold at an average price of $170.00 and the top price of $735.00 was paid for Broadus Blackburn 7th, sold by G. N. Buffum, of Bechard, and purchased by Mr. Hume, of Manitoba.

Over 200 head were sold through the ring, and the breeders who had well bred bulls and had them in good condition were well satisfied with the prices obtained. The better bull campaign is having its effect in increasing the demand for real good bulls.

An Amazing Watch

Has Four Dials and Runs for Thirty Hours

One of the most remarkable watches in the world was recently constructed by a leading British firm. The front dial of the watch, upon which ordinary time is indicated, carries four small dials. One of these shows the days of the week and the date of the month. The other forms a perpetual calendar, indicating the first, second, third and leap years. No. 3 dial indicates the phases of the moon and No. 4 acts as a recording chronograph showing hours and minutes, seconds and fifths of seconds. There is also an indicator and pointer which shows at any time to what extent the watch is wound up. The main dial also carries a further hand distinguished by a small sun near its outer end. This hand shows the position of the sun before or after clock time. The watch strikes the hours and the quarters and repeats the hours, quarters and minutes at any time desired. On the back of the watch there is a dial showing the sidereal day of 24 hours. It also carries a star chart or planisphere. The point on the chart corresponding to the North Pole is set at the centre of this dial and the exposed portion of the chart reveals the portion of the sky visible in the latitude in which the watch is used. The movements of the watch are arranged in three tiers and are fitted throughout with diamond and ruby jewels. The watch runs for 30 hours with one winding. It was constructed to order and cost one thousand guineas.

The Bride's First Breakfast

"John, dear," began the bride tearfully, "breakfast is on the table—but—but—isn't it just too annoying—look at the bread!" "Why," exclaimed the bridegroom in surprise, "it isn't baked at all!" "I know it isn't dear; that's just it. And I p-p-put lots and l-l-lots of baking powder in it, too!"

The worms that infest children from their birth are of two kinds, those that find lodgement in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with work havoc there. Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

COULD HARDLY STAND AT TIMES

Hips, Back and Legs Would Have That Tired Ache

Everett, Washington.—"For several years I have had trouble with the lowest part of my back and my hips and my legs would ache with that tired ache. I could hardly stand on my feet at times. I was always able to do my work although I did not feel good. I saw Lydia E. Pinkham's Vegetable Compound advertised and having heard several praise it I decided to try it. I feel first-rate at the present time. It has done wonders for me and I keep it in the house right along. I always recommend it to others who are sick and ailing."—Mrs. J. H. SIBBERT, 4032 High St., Everett, Washington.

To do any kind of work, or to play for that matter, is next to impossible if you are suffering from some form of female trouble. It may cause your back or your legs to ache, it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good.

Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is especially adapted to relieve the cause of the trouble and then these annoying pains, aches and "no good" feelings disappear.

It has done this for many, many women; why not give it a fair trial—now.

Mr. Jenkins Took a Cracked Club To Tame Lions

The exhibition ended rather badly. It very nearly was a big day for the lions and a sad day for Mr. Jenkins—all for want of proper care in getting ready.

Many a man who has business to do and a living to make and a job to fill is as careless how he feeds his body as Mr. Jenkins was in picking out a club.

Some foods are too heavy, some are too starchy, many lack necessary elements and so starve the body—and many load the system down with fermentation and auto-intoxication.

Grape-Nuts helps build health and strength. It contains the full richness of wheat and malted barley, including the vital mineral elements, without which the body cannot be fully sustained. Grape-Nuts digests quickly and wholesomely. Served with cream or good milk, it is a complete food—crisp and delicious.

Grape-Nuts is just the food for those who care to meet life's situations well prepared in health. Order Grape-Nuts from your grocer today. Try it with cream or milk for breakfast or lunch, or made into a delightful pudding for dinner.

"I'm convinced if I had taken Tanlac two years ago, when my troubles first began, I would have been saved a world of suffering," said Ed. W. Field, 528 Jefferson St., Milwaukee, Wis.

"My case proved that when a man's stomach goes wrong, everything goes wrong with him. The first thing I noticed out of the way was loss of appetite and next, that no matter how sparingly I ate, I was sure to have an attack of indigestion. I finally got so I couldn't walk a couple of blocks without having to stop and rest and I was so nervous that often I sat up in a chair all night long.

"Tanlac has made a new man out of me, my stomach is as sound as a dollar and I feel fine all the time. I am a firm believer in Tanlac because I know it delivers the goods."

Too Much Unrest

Many Causes Advanced for Present Restlessness in World

Opinions as to the cause of "unrest" so much in evidence very quite as much as the numerous forms in which the unrest manifests itself. Some of the causes advanced are too much jazz, too much hooch, too much lawlessness, too much law, too much restrain on the people, too little restraint, too little religion, too much preaching, too much unemployment, too much laziness, and so on. It seems to be either too much or too little of one thing or another. The only thing on which nearly everybody seems to agree is that there is too much unrest.—Springfield Union).

Eager to Get Facts

American Agriculturists Want to Know More About Farming Conditions in Canada

(Special Correspondence by G. C. Porter, of Winnipeg)

Fargo, N.D.—In point of territory covered this is the most important immigration outpost maintained by the Dominion Government in the United States. Through this gateway streams emigrants from Kansas, Missouri, Arkansas, Oklahama, Texas, Mississippi and Louisiana into the Canadian Northwest. F. H. Hewitt is the agent in charge for the Government here and at present his mail brings thirty-five letters daily enquiring about the prospects for farm, fruit and dairying prospects on the prairies and in British Columbia.

During the past three weeks I have traversed the prairie States of Minnesota, North and South Dakota, Iowa, Nebraska, Kansas and Missouri. Not since 1912 have I found such keen interest in things Canadian.

I attended a Farmers' Institute at Colby, Kan., recently. This is the extreme western part of the State. These "Institutes" are informal gatherings of farmers where reports are read from Agricultural Societies. Through Agent Hewitt carrying his exhibits to many country fairs in Kansas, the farmers have a very accurate knowledge of the conditions on the Canadian prairies. These people are eager to get facts. They are familiar with scientific soil culture. To tell one of these men that a given farm produced so many bushels to the acre is to invite such a multiplicity of questions that only a soil expert could answer. Jacob Mohler, Secretary of Agriculture for Kansas, says that for the first part of April his office has a considerable number of prospects for the Canadian Northwest who will go up to "spy out the land." Most of these agents would rather have a "prospect" make a trip over the line before he tries to decide on location or details of any kind. Mr. Mohler, in talking to me, remarked, "I have known of many men who went to Canada and prospered and then I have heard of some who came back dissatisfied." It is to avoid these dissatisfied ones that agents are now working.

Have it by you for ready use.

BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dumas, Que., writes:—"I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Rosin Has Become Valuable

New Uses Found for a Practically Worthless Product

Many articles in daily use came originally from the ground but few realize that "mining" rosin has been a thriving industry in the United States for many years, despite the fact that rosin is the product of the sap of certain species of evergreen tree.

Half a century ago rosin was so cheap that it did not pay to put it in barrels and send it to market. The barrels were worth more than the rosin. Turpetine, however, brought a good price and came from the same sap which yielded rosin as a by-product. In consequence manufacturers concentrated on the turpentine and allowed the molten rosin to run into pits, where it hardened and was covered with earth to get it out of the way.

This went on for some twenty-five years, and meanwhile the value of rosin went up because new uses were found for it, principally in the soap and paper industries. For a time people forgot about the tons of valuable rosin lying buried on the site of the old turpentine distilleries, but by and by a group of enterprising manufacturers began to work these rosin "mines." Of course these buried supplies will eventually be used up, and then people will have to turn once more to reducing rosin from pine gum.

Speed of the Tortoise

Takes Nearly Four Years to Travel One Mile

A professor at Wisconsin University in America has been playing a jolly game with tortoises. He has discovered, by letting loose 166 tortoises all labelled, that a tortoise takes four years all but a few days to cover a distance of one mile.

The professor also noticed that in a period of five months the 166 tortoises went a distance of 115 yards, thus making their average speed about two feet in one day.

Travelling at that rate, a tortoise starting from London would take nearly a century to reach Edinburgh.

Blocked Doorway at Hampton Court Opened

Haunted Chamber Has Been Closed For 187 Years

After having been closed for 187 years, a blocked-up doorway at Hampton Court Palace has been re-opened.

It connects Henry VII's so-called Watching Chamber and the well-known Haunted Gallery. Through it have passed Shakespeare, Charles I., Queen Elizabeth, Mary Queen of Scots, Oliver Cromwell, and a host of other historical personages. Catherine Howard, one of Henry VIII's consorts, passed through it on her way to the scaffold.

Shakespeare's company performed plays in the Great Hall off Hampton Court Palace at Christmas, 1603, and the rehearsals took place in the Watching Chamber.

A feature of the "Haunted Gallery" was a picture of the "Wild Man and Woman," brought by Martin Frobisher from America which is supposed to have given Shakespeare his first conception of Calibar.

The doorway was closed by King George II. in 1735, who had the gallery turned into a habitable room.

Clock Was All Right If You Understood It

The cleaning of the big clock on the English House of Parliament reminds a story teller of his grandfather's clock, which he treasured very highly in his Gloucestershire family. The ancient in whose house it stands tells visitors that nobody in the household understands much about it except himself, though the clock, he insists, is a good timekeeper. Stony Plain and District.

There will be a dance in the Rosenthal schoolhouse on the evening of Friday, April 21.

The concert given on Monday April 17 by the Heatherdown Social Club, in aid of the proposed Community Hall, was a decided success.

A very good time was enjoyed last week at the home of Mr and Mrs Mutter, Heatherdown, when a birthday party was given in honor of their son James. After a very enjoyable supper had been served, games and dancing filled in the rest of the evening.

Craigie Masterpiece and Job, the two handsome stallions which have come into such prominence of late, are still the property of the Alberta Government. When put up at auction in Edmonton last week $1100 was bid for Job, on which the reserve bid was $2000. On Craigie Masterpiece the reserve price was $5000, but the bidding went up to only $2000.

No tenders for the Stony Plain Demonstration Farm were received by Mr H A Craig, Deputy Minister of Agriculture, who had had this place advertised for sale by tender. The usual work will be carried on until an opportunity to sell occurs. Hon Geo Hoadley thinks that if there is a good crop this year, there will be plenty of offers to buy the place.
